A. Contact network
Work
Education
Household
Family
B. Work
Share of individuals (%)
Vacc. fraction, $f_{work}(i)$
$c = 2$
$c = 3$
$c = 4$
$c = 5$
$c \geq 6$
Vacc. co-workers
Vacc. fraction
C. Education
Unvacc.
Vacc.
Vacc. fraction, $f_{education}(i)$
D. Household
Share of individuals (%)
Vacc. co-residents
Vacc. fraction, $f_{house}(i)$
E. Family
Observed
Shuffled null
Full siblings
Co-parents
Half siblings
Parent–child
Aunt/uncle
Grandparent
Pearson correlation, r
Vacc. fraction, $f_{family}(i)$
F. Mean across layers
Mean vacc. fraction, μ_i
G. Variance across layers
Variance of vacc. fraction, Var_i
