B. Work
Share of individuals (%)
Vacc. fraction, $f_{\text{work}}(i)$
$c = 2$
$c = 3$
$c = 4$
$c = 5$
$c \geq 6$
Share (%)
Vacc. co-workers
Vacc. fraction
C. Education
Unvacc.
Vacc.
Share of individuals (%)
Vacc. fraction, $f_{\text{education}}(i)$
D. Household
Share of individuals (%)
$c = 2$
$c = 3$
$c = 4$
$c = 5$
$c \geq 6$
Vacc. co-residents
Vacc. fraction, $f_{\text{house}}(i)$
E. Family
Observed
Shuffled null
Full siblings
Co-parents
Half siblings
Parent–child
Aunt/uncle
Grandparent
Pearson correlation, r
Share of individuals (%)
Vacc. fraction, $f_{\text{family}}(i)$
F. Mean across layers
Share of individuals (%)
Mean vacc. fraction across layers, μ_i
G. Variance across layers
Share of individuals (%)
Variance of vacc. fraction across layers, Var_i
